

Carbery RB

Capacity	1174 Litres
Length	1930 mm
Width	830 mm
Height	1350 mm
Ofcert License No.	0654010601

Carbery B 1350

Capacity	1390 Litres
Length	2020 mm
Width	1270 mm
Height	1200 mm
Ofcert License No.	0654070501

Jumbo Bund

Capacity	2335 Litres
Length	2400 mm
Width	1700 mm
Height	1480 mm
Ofcert License No.	0654070401

Carbery 6000V Bunded

Capacity	6140 Litres
Diameter	2400 mm
Height	2400 mm

Carbery BUNDED TANKS

Carbery's exclusive range of Bunded Tanks are ideal for use in domestic, agricultural, commercial and industrial use where, in the event of a spillage, there could be significant consequences to the environment. Carbery Bunded Tanks are moulded with a high quality recyclable polyethylene and can be used to store a variety of liquid products such as heating oils, diesel, chemicals, water, molasses, and kerosene (BS2869). Other features of this range are...

- Bund contains a minimum 110% volume of the inner tank.
- Maintenance free • UV stabilised
- Leak free • Corrosion resistant
- Easy to install
- Complete with 1" BSP brass connection
- Option of bottom or top outlet
- "Tank within a tank" construction offers integral protection from leakage and overfilling

CARBERY OIL STORAGE TANKS

**Carbery Tank Range conforms to
 the requirements of European Standard
 for Oil Tanks EN 13341.**

Carbery OIL STORAGE TANKS

Carbery Plastics was established in Clonakilty in 1978 and was one of the first companies to get involved in the manufacture of Oil Storage Tanks. The company is very involved in research and development of new products and in the constant update and improvement of its existing range. Carbery Plastics Oil Storage Tanks are manufactured with a high quality recyclable polyethylene using the most up to date rotational moulding equipment and can be used to store a variety of liquid products such as heating oils, diesel, chemicals, water, molasses, and kerosene (BS2869). Some advantages are

- Manufactured from medium density recyclable polyethylene.
- UV light stabiliser for outdoor endurance.
- Rotationally moulded in one piece with no seams or joints.
- Maintenance free.
- Easily transported with built in grip handles.
- Complete with 1"BSP brass connection.
- Full ventilation.
- High impact strength at low temperatures.
- Easily reached filler point.

INSTALLING YOUR TANK

- Your tank must have a solid flat base.
- Centre your tank on the base.
- Make your tank connection.
- Your Carbery tank is now ready for use.

Carbery Compact R

Capacity	980 Litres
